

FIU - Florida International University
July 10-18, 2020

March 12, 2020

The world is dealing with a large-scale problem and our hearts go out to all those affected by the coronavirus outbreak (COVID-19). At International Doorway we understand that it is our role and responsibility, during this time, to prioritize the health and well-being of our customers and partners and to support the decisions of health officials and government leaders as they work to contain the virus.

With this approach, we will continue to make informed decisions guided by our mission and values. I wanted to personally communicate with you and emphasize at this point, the importance of helping prevent the spread of the virus and supporting the health and well-being of our students and communities.

We continue to monitor the situation and see encouraging signs of recovery in China and hope that the same will happen quickly in the rest of the world. We also continue to monitor that the virus represents a minimal risk to the age group of our students.

We appreciate your understanding as we live through these times together. We understand the anxiety that this situation generates and hope that before the next 4 months a global solution will be found.

The safety of our students and staff is our priority. As the IDEA Showcase approaches in July, we will take the necessary measures in the best interest of our students. We hope that cancel or postpone the IDEA Showcase is not necessary. But in this eventual situation we will adjust to government decisions and work individually so that each of the families is not affected.

I want to thank you for your support. It is our intention to continue providing official information and continue taking care of the health of our students.

Hope to see you soon in the U.S. Regards,

Martin Duhour
